MY PLEDGE · Proudly Made in the USA

Each 44® Frame is built right from my shop here in New England. I take tremendous pride in the fact that each one is made by hand in the USA from U.S. sourced materials whenever possible. I don't choose fly by night operations; only the finest craftsmen are employed for component, material, paint / finishing work. Whenever possible, I spec only OEM's that make their components in these great 50 states. Your frame is guaranteed for the life of the rider. Rest assured that if something does happen, you're covered. RIDE each one with pride.

Signed in Ink

# Mountain/Road 1x11 or 2x11 Custom Select

### Fit Measurements:

1. Inseam: \_\_\_\_\_

In stocking feet, place book between legs as far 'up' as it will go. Stand in front of wall, make mark, and measure. This is your true inseam.

2. Arm length: \_\_\_\_\_

Make a "gun" with your thumb and forefinger. From your shoulder, measure to the crotch of your thumb and extended forefinger. This is your arm length.

3. Torso Length: \_\_\_\_\_

With book still in between legs, measure to the top of your sternum which is about in line with the center line of your outstretched arm. This is torso length.

4. Height: \_\_\_\_\_

In stocking feet, stand straight and measure from ground to top of head.

5. Shoe Size: \_\_\_\_\_

Current cycling shoe to check for toe overlap clearances.

**NOTES:** \_\_\_\_\_
